Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-4 and 6-10 are rejected under 35 U.S.C. 102(a or e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Panaccione(2003/0005599) in view of Giese (5572805) .

Panaccione shows an orthotic insert comprising a first portion (10) with a tongue (12) and metatarsal raise (14) and a second portion (20 and 30) substantially as claimed and teaches forming the different portions from materials with different properties except for the exact shape of the second portion and explicitly stating the % difference in resistance. Giese teaches forming a support second portion in a J-shape (12, figure 73). The exact % difference in resistance is considered either inherent or at least obvious. It would have been obvious to make the second portion J-shaped as taught by Giese and to make the materials with the % difference as claimed in the insert of Panaccione to provide greater support on the medial or lateral side and since it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art. In re Aller, 105 USPQ 233.

3. Claims 1-4 and 6-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over the references as applied above further in view of Hauser (6247250).

Panaccione as modified above shows an orthotic insert substantially as claimed except for explicitly stating that the materials used, i.e. EVA, etc. is capable of being heated and formed to the foot of a wearer. Hauser specifically teaches that EVA is capable of being heated and formed to the foot of a wearer (see column 5 lines 20-25). It would have been obvious to heat form the EVA insert as taught by Hauser in the insert of Panaccione as modified above to form the insert to the exact contour of the foot.

Response to Arguments

4. Applicant's arguments with respect to claims 1-4 and 6-10 have been considered but are moot in view of the new ground(s) of rejection.

1. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
